If no one has added a user as trusted contact, then this form should not be visible, instead a message should be displayed that nobody has added you as trusted contact yet.

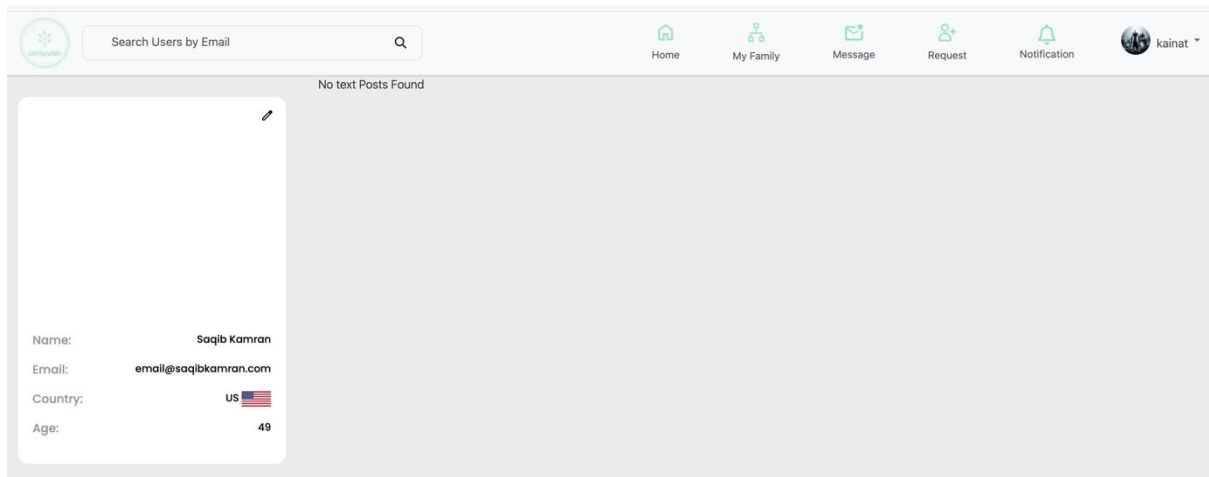

The screenshot displays a web application interface. At the top, there is a navigation bar with a search bar labeled "Search Users by Email" and a search icon. The navigation bar also includes links for Home, My Family, Message, Request, Notification, and a user profile icon labeled "taimoor".

The main content area is divided into two columns. The left column contains a user profile card for "Saqib Kamran" with the following details: Name: Saqib Kamran, Email: email@saqibkamran.com, Country: US (with a flag icon), and Age: 49. Below the profile card is a "Search Post" section with radio button options: Last 7 days, Last 30 days, Last 3 months, Last 12 months, and Custom.

The right column displays a list of posts. Each post card includes a profile picture, the name "Saqib Kamran", a timestamp "Saturday, October 21, 2023 at 09:07 PM", the post content, and a "Visible to:" label with a "Private" button. The posts shown are:

- Post 1: "Both combined"
- Post 2: "Taimoor first post"
- Post 3: "hello There! Kainat first post"

1. When clicked on Search Post by time (last 7 days, 30 days etc.) it shows the private posts as well.
2. There should not be edit button on the profile (left hand side).

If we could make this “No Text Post Found” message look better.

Instead change this message to: “No Posts Found” and make it in the middle with better presentation.
